

REMARKS/ARGUMENTS

This is in response to the telephone interview initiated by Examiner Jason Dunham on October 28, 2009, regarding a supplemental amendment or an Examiner's Amendment to place the application in form for allowance.

In this response, the Specification and Claims 47-69 have been amended. No claims are added or canceled. Thus, Claims 1-23 and 47-69 are pending in the application. No new matter has been added.

In the telephone interview, Examiner Dunham indicated Claims 1-23 were allowable and Claims 47-69 would be allowable if (1) references to "acoustic or light waves" and "carrier waves" were removed from the Specification, and (2) Claims 47-69 were directed to a "machine-readable storage medium." Accordingly, Applicants respectfully submit all claims are in condition for allowance following entry of this amendment.

The Examiner is respectfully requested to contact the undersigned by telephone if it is believed that such contact would further the examination of the present application.

Respectfully submitted,

HICKMAN PALERMO TRUONG & BECKER LLP
